Open the Debug.txt file and copy the string to display after "The last-resort method" There is also an issue with PlaythroughStorage.exe v3.0.exe, you can try to get the latest version from here, or you could manually update it. If you want to go about it yourself, I am going to put the latest version that I have on this page, that being x360ce_3.0.exe. You would install it with steam like you normally would and it should work just fine. It works for me every time. If you run into any problems post and I will help
