from the below link. I got a notice from Federal Trade Commission that the site i created a while ago was under investigation for child pornography. The site includes pictures of girls who have been abused by men who paid them to show sexual favors. I have cleaned the site from all the improper material but all the girls names are still on the site. Please go and look through the site to see if any of your family members have been abused, molested or sexually abused by someone they shouldn't have been with. When I first created the site about two years ago I did not know then that it would be used for child pornography. I was shocked to find the material after it was posted and removed it as soon as I found it. I know this is a difficult time for you.

Please remember all of the women who have been abused. What do you think i should do with the names of the women who have been abused? Should I e-mail them and make them aware of what happened? Or should I just leave them on the website because many of them will never see this? I am sorry for all the hurt and pain this has caused. I don't feel like killing myself, and I don't know what to do, I don't know if they will remember their abuse or not, my mom was molested as a little girl and she doesn't remember, I have been looking at the web to find out more information about this problem and what can be done to find the people who have been abused and to make them aware. I have no idea what to do but i am so ashamed because i know i should have known that this was happening and that i should have stopped it, i am so sorry. If you were a man or a woman in the past or present (at a military base, girl scout camp, birthday party, or family gathering at home) were you ever touched inappropriately?. Thursday
