Portable Tweens Browser Features: - Ad-supported -

Convenient navigation between different websites - Shows information about the websites we visit - Keeps the little ones away from inappropriate content - Generates a unique number each time we access the browser - Print friendly (print directly from the browser) - Full screen navigation - Parental control - Opens many websites at once - Open in browser links to specific web pages - Email links to specific web pages - Quick

What's New in the?

If it's been a while since you checked out Portable Tweens Browser and you are interested in checking out what it offers, you've come to the right place. If you are looking for a tool to help

parents monitor their children's activity, then Portable Tweens Browser is the application you want to check out. More importantly, it is a tool that is made by a company that really understands the concerns that parents have with their children's activity online. From the moment the app opens, you'll immediately notice that it is light weight. This is because Portable Tweens Browser is designed to be a tool that can be run on any type of device, like your home computers, tablets and phones. If you are running a mobile device, then you can rest assured that the tool isn't going to hog up a lot of resources. Additionally, it will display the time and date on the bottom of the screen, which is something that can really help you monitor your children's

activity online in an effort to keep them safe. The application itself doesn't come with too many features. It can open multiple tabbed windows, but it only allows you to open up to 20 windows. What's really important about Portable Tweens Browser is that it is designed to be very secure. If you give the tool to your child, and they sign into it with their own email, you can ensure that they aren't going to see too many websites that you don't want them to see. This can be a real issue when children are growing up and starting to explore the internet in their early teen years. What's more, the tool is a multi-lingual one. So if you have a child who speaks Spanish or French or English, then you know that you can help them navigate the internet in whichever of

those languages they speak. If you are looking for a great tool that helps parents monitor the online activities of their children, then Portable Tweens Browser is a tool that you want to check out. Download Children Watch is an ultra light and small browser that covers the whole screen and even keeps the date and time in the corner of the desktop window. It is designed for children up to 12 years old. Features: Convert file formats, filters, manage picture/video thumbnails, export pictures/videos as jpeg, avi, mp3, flash, flv, wmv
